

FOR IMMEDIATE RELEASE

CONGER AUTO NERO by CX Swiss Military Watch™

Liestal, Oct. 17th 2014 – The brand CX Swiss Military Watch™ is best known for their flagship model, the ultimate diving watch 20'000 FEET www.20000feet.com. Launched in 2009 the 20'000 FEET won the world record for water resistance for automatic diving watches with a Guinness Book of World Records approved depth rating of 20'000 feet or 6'000 meters (ISO 6425).

Montres Charmex SA is very pleased to announce their new extreme diving watch **CONGER NERO AUTO**:

Named after the fearsome eel-like predator of the sea - up to 10 feet long and with a set of razor-sharp teeth the conger when cornered has been known to attack divers, too. The CONGER NERO AUTO was manufactured in a Limited Edition of 100 pieces only, is water resistant to 2'000 meters and as fearsome in appearance as its namesake. The black DLC (diamond-like coating) is highly scratch resistant and ensures the watch will keep its pristine appearance for many years. The highly accurate mechanical ETA cal. 7750 chronograph movement is chronometer-certified and famous for its unwavering precision

The CONGER NERO AUTO is a Professional Grade diving instrument of formidable dimensions

Technical specifications ref. 2555 et al.:

- . Solid stainless steel case/bracelet
- . Case diameter 48.5mm, thickness 22.5mm, total weight 375gr
